

Benedictine Campaign More Than Half Over

\$38,467 In New Subscriptions Turned In at First Report Meeting Bring Total to \$83,667—Results Far Exceed Expectations—Outstanding Gifts Announced—Second Report Meeting Will Be Held at Armory Tonight at 9 O'clock.

With a week yet to go and the goal already in sight the army of workers enrolled in the Benedictine Hospital Campaign today set out to push the subscription grand total beyond the \$100,000 mark at the second report meeting tonight.

Already the campaign is more than half won. In the first report meeting last night in the armory the organization turned out in force and reported \$38,467.25 in new subscriptions. At the close of the meeting it was officially announced the campaign had passed the halfway mark with \$83,667.25 pledged to the Benedictine.

Monday night's meeting was strictly a business session. There was no program to take the time of the workers and the business of compiling and reporting the subscriptions began when the meeting was called to order by Chairman Elting.

The results outstripped all predictions for the first report meeting. Estimates of the accomplishment over the week end were virtually doubled, establishing a record that workers are determined to equal during the remainder of the campaign.

The reports were made by team captains who answered for their workers at the call of their divisional leaders. Philip Elting, general chairman of the campaign, conducted the work.

It was a good natured, enthusiastic war, united for the Benedictine, but battling for leadership in the effort to put Kingston and Ulster county over the top for the local hospital.

C. V. A. Decker, manager of Uptown Division A, carried away last night's honors with total pledges of \$4,689. He was only a neck ahead of Division C, headed by the Rev. William H. Kennedy, however, who turned in a total of \$3,586.50. Other leading divisions, whose announcements tonight may put them in the lead, were Division C, Vincent A. Gorman, manager, \$3,539; Division D, Matthew H. Herzog, manager, \$3,486; Division F, Max L. Reben, manager, \$3,166; Division Q, William O'Reilly, manager, \$2,487; and Division M, Walter P. Crane, manager, \$2,419.

Divisional Totals.
The divisional totals as read from the floor were as follows:

Uptown—Division A, C. V. A. Decker, manager, \$4,689; Division B, E. Frank Flanagan, manager, \$2,555; Division C, Vincent A. Gorman, manager, \$3,539; Division D, Matthew H. Herzog, manager, \$3,486; Division E, Frank P. Messinger, manager, \$1,049.50; Division F, Max L. Reben, manager, \$3,166; Division G, Edwin E. Stanbrouck, manager, \$1,341; Division H, Arthur Wicks, manager, \$1,096.

Downtown—Division M, Walter P. Crane, manager, \$2,419.50; Division N, Henry Forst, manager, \$1,498; Division O, the Rev. William H. Kennedy, manager, \$3,586.50; Division P, William C. Kingsman, manager, \$3,725; Division Q, William O'Reilly, manager, \$2,487; Division R, Samuel Stern, manager, \$882; Division S, Louis N. Stock, manager, \$662; Division T, Sam N. Watts, manager, \$1,530.

The total of \$38,467.25 for the Kingston organization was supplemented by the early reports of two county districts, whose leaders turned in a total of \$868. The county organization was well represented at the meeting although subscription reports were not expected until the Friday night meeting.

The two reporting county districts were Woodstock, District No. 1, headed by George H. Elwyn, \$231, and Esopus, District No. 3, under Richard J. Gardner, \$637.

The announcement by Miss Anna C. Cassidy that the Benedictine Hospital Nurses' Alumni Association had subscribed \$1,000 drew hearty applause. Other individual gifts were announced by Mr. Elting from the platform including one from Edward Cockendall, president of the Rondout Savings Bank, for \$2,000. In making the announcement, Mr. Elting referred to the recent death of Mrs. Cockendall and read a note pencilled on the back of the donor's subscription card:

"This subscription, it reads, 'includes one that Mrs. Cockendall said that she intended to make.'"
Mr. Elting also announced gifts of \$1,000 from Cornelius J. Curtin, and \$100 from Mr. and Mrs. McDonald DeWitt, all of New York.

Outstanding Gifts.
Among the outstanding gifts announced from the floor last night were:

George Washburn	\$ 500
Kingston Council, K. of C.	500
Frank Cockendall	1,000
Edward Cockendall	2,000
Edward A. Kelly	1,000
Mrs. Edith A. Hawk	300

Memorial Day Plans Complete

The celebration of Memorial Day here Wednesday will be the most outstanding ever to mark the event in Kingston according to the plans which have been completed by the Memorial Day committee. A big parade, consisting of the various organizations of the city, will form the outstanding feature, while the marching of the school children to the cemeteries will make up another and a program to be rendered in the rear of the Kingston High School is expected to draw one of the largest assemblages ever to gather for a like celebration.

The children of the downtown public schools will march to Montrose cemetery to decorate graves there, while the pupils of those up-town and from Wilbur will go to the cemetery at St. Mary's and St. Peter's Parochial School children will march from their schools to the respective cemeteries of their parishes. The up-town children will be led in the line of march by the Mechanics' Band, the downtown pupils by the American Legion Drum Corps, while the Parochial schools will be headed by the Citizens' Band.

The big parade will start from the corner of Broadway and McEntee street at 10 o'clock in the morning and march up Broadway to Academy Green from where it will proceed back to the high school. Here a concert will be rendered by the Mechanics' Band after which Dr. Myron J. Michael, superintendent of schools, will take charge of the program to be rendered.

Exactly at the hour of 12 noon one of the local batteries will fire a salute in honor of the nation's dead. After this the invocation will be pronounced, followed by a speech at 12:10 by Charles H. Tuttle, U. S. Attorney for the southern district of New York, who is well known as a speaker. Should rain interfere the address will be made in the high school auditorium. Everybody is invited to attend the exercises. The board of public works has erected a platform containing seats, in the rear of the school, where the program is to be given.

Cop Applicants Are Asked What Is White Mule

They Were Also Questioned As To Whether They Used Tobacco or Liquor—Police Commissioners Listen In on Oral Examination—14 Take Examination.

"Do you know what 'White Mule' is?" asked Secretary Lou Dunne of the local civil service board of the fourteen applicants for positions on the Kingston police force at the oral examination held Monday evening in the board of public works office. The applicants were also asked if they chewed tobacco or smoked and if they drank.

The fourteen men who were given the oral test were: Messrs. McGrane, Fallon, Barman, Bowers, Burns, Cramer, Albrecht, Boss, Leonard, Holstein, Darwak, Stewart, Dero and Rodden.

It is said that the civil service board expects to be ready to furnish the police board with the eligible list by the first of the month.

At the invitation of the civil service board the board of police commissioners "sat in" on the examinations Monday evening and listened while Secretary Dunne conducted the questioning.

Among the questions Mr. Dunne asked the applicants were where they were employed; how old they were; if they chewed tobacco or smoked; if they drank; what was "White Mule"; and a few other questions of a personal nature.

The applicant was then questioned as to what constituted reckless driving and what he would do in case he thought the reckless driver was also intoxicated. Another question asked was what he would do in case he found the door of a store swinging open while patrolling his beat.

Secretary Dunne also asked if they believed in the third degree being worked on prisoners by the police, although he did not give his own interpretation of what the third degree was. Some said they did and some said they did not.

Another question asked was what they thought more important; to get along with the public; to write a good report or to be a good marksman. The majority answered to get along with the public.

Notes on some of the answers given by the applicants were taken down by a stenographer.

Notice to Boy Scouts.
All Scouts are requested to appear in uniform at their respective schools at 7:50 for the purpose of assisting in conducting younger children to cemeteries on Memorial Day. Every Scout should be at Wurts and McEntee streets at 9:45 a. m. Wednesday, for the purpose of taking part in Memorial Day parade.

No Mail Delivery Wednesday.
Wednesday will be observed as a holiday by the post office department on Wednesday and there will be no delivery of mail that day.

The windows in all of the offices will be closed all day, but the lobbies will be open for the convenience of the box holders.

Pleased With Results

PHILIP ELTING.

Philip Elting, general chairman of the Benedictine Hospital Appeal, faithful, loyal and stoical in his job to win the campaign for Benedictine, today expressed pleasure and satisfaction at the results announced at the first report meeting held in the Armory Monday night. The campaign total now stands \$83,667.25.

Mr. Elting, a real leader, sets the example for his army of more than 500 workers by his own untiring efforts. Exhorting his co-workers to continue their solicitations with vigor, he emphasized the fact that no one should be overlooked and that all pledges are not only necessary for success but, regardless of the amount, are deeply appreciated. The Benedictine appeal, he pointed out, is made to every heart and home and the entire community should be given an opportunity to participate.

The General Chairman was especially pleased at the Ulster county showing at Monday's meeting. While a large number of pledges make up the total subscriptions thus far, they are representative, largely of Kingston only. The first reports for the Ulster county workers will be made Friday night although two county districts, anxious to demonstrate that the county is on the job, already have turned in subscriptions.

From the county attendance at the Armory meetings and from indications of activity in behalf of Benedictine throughout the outlying districts, it was evident the county will make a creditable showing.

BRUTAL MURDER OF SMALL GIRL IN TOLEDO

Toledo, Ohio, May 20 (AP).—A man early today entered the home of Alex Szelagowski, took Dorothy, aged seven, from the bed where she was sleeping with her three sisters, carried her to his automobile, attacked and killed her and 20 minutes later threw the body on the porch of her grandparents, Mr. and Mrs. Felix Dobrzenski, a few doors from the child's home.

Bad Weather Is Impeding Italia Search

Continued from Page 1.

King's Bay, Spitzbergen, May 20 (AP).—The Italian search for the missing dirigible Italia from the air, arrived at Bodoe at 6:20 o'clock this morning by airplane. From there he will fly to Tromsø, 100 miles further north, to join the leader Hobby which will take him to Spitzbergen. He left Bodoe at 6 p. m. last night.

The larger auxiliary expedition has been suspended indefinitely, as the Italian government is said to be inclined to await further developments.

Head of Ross Stores Is Dead

Louis W. Roskopf Was a Pioneer in The Chain Store Field—Founder of the W. T. Grant Chain—Later Organized the Ross Stores.

Louis W. Roskopf, pioneer in the chain store field, died May 25 at Lenox Hill hospital after being confined there but a few days for treatment for illness that gave no appearance of being serious. He was 54 years of age. Born in Narrowsburg, N. Y., March 17, 1874, Mr. Roskopf was during his life identified with numerous prominent mercantile enterprises throughout the East, and at his death in New York city was head of the Ross Stores, Inc., chain of department stores of which the L. B. Van Wagenen Co. store in this city is the local branch.

Early in his life he began to visualize the advantages and possibilities of chain store operation. And, though comparatively young in years when he died, he was the founder of several widely known chains of retail stores. Mr. Roskopf began his career in a small dry goods store in New Bedford, Mass., his then home town. In 1904 he assumed the management of the Almy Bigelow & Washburn department store in Salem, Mass.

In 1906, while yet engaged with Almy Bigelow & Washburn, he founded the W. T. Grant chain of dollar stores, and for a number of years served this company as president. The first of these stores was opened in Lynn, Mass.

In 1914 he disposed of his holdings and severed his connections with all other concerns, and prepared for the launching of a new venture on an even larger scale than any he had heretofore attempted. And within the ensuing year he founded the Itay Dollar Stores. As the president of this company he developed it to a chain of a large number of flourishing stores scattered throughout the New England States.

While engaged in the development of this last mentioned chain of dollar stores, Mr. Roskopf visioned further and conceived the idea of applying the chain store principle to department stores, and in the year 1919 he undertook, as a result, what was probably the first attempt to operate by chain store methods the department store with its many more ramifications than are those in a small ware store or the store that limits its price range at one dollar. At this time he founded The Ross Stores, Inc., with the first store in Jersey City, N. J.

Since that time, in the brief span of only nine years this company, under the personal management of Mr. Roskopf, has grown to a chain of twenty-one prominent and flourishing department stores in as many cities throughout six states, doing a total volume annually of many millions of dollars. As its president he remained the guiding genius in the business up to the time of his death. The many outstanding accomplishments and the outstanding successes that he was able to attain in his comparatively short life are due primarily to an easily recognized merchandising genius, a marked organizing ability, keen foresight, a great capacity for work, and a never failing sympathetic understanding of the human element in the enterprises under his control.

Mr. Roskopf was a brother-in-law of William H. Rudderham, at one time manager of the L. B. Van Wagenen Co. store in Kingston, now a merchant in New Rochelle.

LEGION DRUM CORPS WILL MEET AT 7:45

Members of the American Legion Drum Corps are requested to meet at the Legion Building Wednesday morning at 7:45. The drum corps will lead a parade of school children from Broadway and McEntee street to Montrose cemetery, starting at 8 o'clock. The drum corps will then return to the Legion Building and lead the large delegation of Legionnaires to the Legion Building to Broadway and McEntee street where the big parade will start.

SIX NEGROES GUILTY OF MURDER OF FELLOW CONVICT

Sacramento, Cal., May 20 (AP).—Six convicts charged with the murder of George Baker, a fellow prisoner, during the Thanksgiving Day riots at Folsom Prison, were found guilty late last night. The verdict carries the death penalty for all six.

Several prisoners and guards were killed during the attempt of convicts last November. The riot leaders to lead a prison break from Folsom were found to be Tony Brown, San Francisco bandit; Walter E. Burke, Roy E. Stokes, James Gregg, James Gleason and Albert M. Stewart.

Stewart was called a "squealer" last February by his fellow convicts when the same six convicts were convicted of the murder of Guard Ray Singletown and sentenced to life imprisonment.

The convicts were reindicted and brought to trial. Stewart turned state's evidence and it was expected that he would be granted life imprisonment. When he was convicted of first degree murder along with the five others, they broke into sardonic laughter.

LINDBERGH STARTS TRIP TO SAN FRANCISCO

Curtiss Field, N. Y., May 20 (AP).—Colonel Charles A. Lindbergh took off at 5:25 o'clock this morning in his Ryan monoplane for Columbus, Ohio, on the first leg of a flight to the Pacific Coast to map an aerial route for the Transcontinental Air Transport, Inc., of which he is chairman of the technical committee.

Colonel Lindbergh refused to make any statement prior to the takeoff. He was accompanied on the flight by three companions, all of whom declined to reveal their names. One of them, however, was recognized by newspaper men as Colonel Henry Brockbridge, Lindbergh's attorney.

Excellent flying weather prevailed and the takeoff was made without incident.

ROSCOE A. PAUL'S STOLEN CAR FOUND AT ROSENDALE

The Buick sedan of Roscoe A. Paul of the Kingston High School faculty that was stolen from the school grounds at noon on Monday was found abandoned later in the day in front of the Valley Inn at Rosendale and word to that effect was telephoned the police by Frank McCordie of Rosendale. Mr. Paul was notified and recovered his car.

Soda clerk suffered foot miseries

—but Coolene ended all burning and aching overnight

If you ask George Ginn what he thinks of Coolene, he'll probably say, "There's nothing like it for burning, aching feet."

George Ginn, who is a soda dispenser at a well-known restaurant, 1005 Spa, 2001 Fifth Avenue, New York City, recently began to suffer from foot troubles. He knew that unless he found relief from painful blisters and calluses, he'd need a wheel-chair to serve customers. One day he tried Coolene. Results were remarkable. As he says himself:

"Being a soda dispenser at a popular restaurant is a little too easy for me to be in my feet a day long. After a short while on the job, my feet began to trouble me. They burned and ached, calluses formed. I put my old-time speed at getting soda. When my feet were aching, my feet pained me so that it was all I could do to get home. I was often tempted to drop some ice cream into my shoe just to get a burning foot. One day a drug clerk suggested that I try Coolene. I did, and Oh how I feel! Thank you Coolene my foot troubles are gone for good!"

Coolene soothes and heals sore, aching feet instantly! It contains rare, penetrating oils—and two world-old, soothing ingredients—frankincense and myrrh, used by the ancients for centuries.

Get Coolene today. This wonderful healing cream takes all the burning and soreness out of corns, calluses, bunions and blisters. Coolene is ivory-white, greaseless, stainless. Easy to use. Vanishes instantly.

Relief guaranteed from burning, aching, tired feet—or its small cost refunded. Sold and recommended by good druggists everywhere, such as:

Benj. W. Johnston,
McBride Drug Store

Wm. F. Dedrick,
Kingston Central Pharmacy

Coolene is securing these remarkable results in cities everywhere. Edmund T. Davis of Wilkes-Barre, Pa., pictured above, another popular soda clerk, says "Coolene brought me instant relief from foot pain."

School Pupils Will Parade

The grade school pupils will assemble at their respective schools Wednesday morning, Memorial Day, at 8 o'clock to prepare for a parade which will be held in the cemeteries of the city. The children have been requested to bring flowers and potted plants to be used in decorating the graves.

At 9 o'clock on May 1, 2, 3, 4, 5, 6, 7 and 17 will go to Woodstock cemetery. No. 1 will go to No. 3 School by way from where they will march with Nos. 2 and 3 to the cemetery. The line of march will pass through 4th street, Green street, St. James street, Clinton avenue to Broadway. No. 5 School will join the line at the corner of Pine Grove avenue and Broadway.

Schools Nos. 2, 3, 4 and the Livingston Street Lutheran School will march to Montrose cemetery. The Livingston Street Lutheran School and School No. 3 will march to the corner of Broadway and McEntee street, where No. 4 will join them at 9:30. No. 4 will be brought from Ponckhockie by a trolley car, which the children will board at the power-house switch. No. 2 will join the line of march as it passes the school building on the way to the cemetery.

St. Peter's School pupils will assemble at the school at 8:15 from where they will march to the cemetery, where a field Mass will be offered at 8:30 o'clock. Should rain interfere the children will attend

Mass in the church at the same hour instead of going to the cemetery. St. Mary's School pupils, the Boy Scouts, Holy Name Society and Knights of Columbus will leave the corner of Broadway and McEntee street at 8:20 for St. Mary's cemetery where a field Mass will be offered at 8:30 o'clock. The Citizens' Band will lead the K. of C.

THE HOMESTEAD ADDS DINING ROOM SERVICE

The Homestead at Woodstock has just added dining room service at its popular guest house. Mrs. Sarah Cashdollar has been asked by many of her summer guests to make the change, and at this time she announces that a cook has been engaged, a large, airy dining room fitted out to care for 20 people, and that home-cooked meals will be served, beginning June 1. The Homestead is open all year round; it is located on the roadway leading into Woodstock village, just past the former C. N. Rueler Farm House, which is now being taken over for the new Country Club. It is expected that the cuisine at The Homestead will prove a welcome and popular addition this season.

HE BUILT HIS OWN HOME LAST YEAR. WONDER IF THAT HAS ANYTHING TO DO WITH IT?

That's an idea! Perhaps the owning of a home has more to do with a man's feeling of content than we have realized. Perhaps his doctor should say to that depressed, blue, discontented patient:

"You've got a real case of homesickness. Build you a home."

If he got his building materials from us, we know he'd be satisfied. No man could live in a house which looks like a palace without feeling like a king.

4 Great Cars in 4 Price Fields

The President

\$1985 to \$2485

F. O. B. FACTORY

100-horsepower straight eight motor
80-mile speed 131-inch wheelbase

Holds all official records for stock closed cars, regardless of power or price, from 5 to 2000 miles and from 1 to 24 hours.

The Commander

\$1435 to \$1625

F. O. B. FACTORY

85-horsepower 72 miles per hour

World's Champion car—25,000 miles in less than 23,000 consecutive minutes. Nothing else on earth ever traveled so far so fast.

The Dictator

\$1195 to \$1395

F. O. B. FACTORY

70-horsepower 65 miles per hour

3000 miles in less than 4800 consecutive minutes—a record for stock cars priced below \$1400.

The Erskine

\$795 to \$965

F. O. B. FACTORY

65-horsepower 62 miles per hour

Thrilling six-cylinder performance. 1000 miles in less than 1000 consecutive minutes—a record for stock cars priced below \$1000.

STUDEBAKER has swept the boards! Every official speed and stamina record for fully equipped stock cars is held by Studebaker. Every Studebaker is a champion! Never before has any one manufacturer held all these records!

These remarkable records (listed at the left) offer clean-cut proof of speed, of stamina, of durability, certified officially by the American Automobile Association. Studebaker has proved these three vital qualities by heroic tests of strictly stock cars under unquestioned official sanction.

To you these repeated evidences of Studebaker endurance and speed are conclusive assurance of Studebaker's fitness to meet every demand of everyday motoring. Your Studebaker can give more than you will ever ask.

Studebaker's Championship is beyond dispute

Studebaker cars have proved beyond question their ability to travel great distances at sustained high speeds. No car except the Studebaker Commander ever came within 10,000 miles of The Commander's great record of 25,000 miles in less than 23,000 minutes! No fully equipped closed car ever equalled The President Straight Eight's official records. No cars of their price classes ever traveled so far so fast as did The Dictator and The Erskine Six.

When such performance can be bought at Studebaker's remarkable One-Price prices, why be content with less than a champion?

40 miles per hour even when NEW!

Studebaker's sensational proofs of speed and endurance come from engineering genius, quality materials, precision manufacture and rigid inspections. Because of these, any Studebaker may safely be driven 40 miles an hour the day you buy it. Motor oil need be changed but once in 2500 miles. The President, Commander and Dictator require chassis lubrication only after each 2500 miles.

Today in Studebaker and in Studebaker alone, you can buy the utmost in every phase of motoring—and behind it a name that for 76 years has meant dependable transportation. Come in, and drive a champion!

Mr. Seamen Tells of Attack

Alleging That Curries Assaulted Him With Rocks—Seaman Says He Probably Used Tool To Defend Himself.

The assault action brought by John R. Seaman against Frank and John Currie of Highland was continued in supreme court Monday afternoon and at adjournment time the case on the part of the plaintiff was concluded. John Currie had not been served and is not a party to the action although his name appears as a defendant and plaintiff claims both he and his brother were present at and committed the assault.

Dr. Preston of Highland, who had been subpoenaed by the plaintiff failed to show up and an attachment was ordered for this morning to produce him in court. Plaintiff's attorney stated he had subpoenaed Dr. Preston and at the time the doctor had told him if he happened to be busy he would not answer the paper. Immediately on this statement William D. Brinnier, Jr., who is associated with A. W. Lent for the defendant, asked the court to issue an attachment so that the doctor might be in court this morning and be examined in regard to the injuries which he had treated Mr. Seaman for after the alleged assault.

Court resumed 2 o'clock Monday afternoon with Mr. Seaman on the stand. He was cross examined by Mr. Brinnier. Mr. Seaman said he was not sure just what happened after he had been attacked as he apparently was in a dazed condition. He said he had made no remarks to provoke an attack and so far as he could remember the only remark he had made to the Currie brothers was a reply to their invitation for him to "come out in the road and dance." Mr. Seaman said he replied that he would not dance with them and he only danced with Americans. The invitation to "dance" evidently was an invitation to engage in a fight.

After he had refused to dance with the Curries he said they came after him. He had returned from the place where he had erected a sign over a spit fence erected by the Curries between his gasoline station and their station and was seated at the gasoline station when they came after him. They had rocks in their hands when they attacked him. He said he had a hammer or wrench or some tool in his hand at the time he was attacked.

Probably Used Tool.

Asked if he had not attacked the Curries with the tool the witness said he was not sure. If he had the tool in his hand he probably did use it, he would have used it if he could. After repeated questions he said he probably did use it. Later he said he thought he did use the hammer or wrench to defend himself. He was finally knocked down and the Currie brothers assaulted him with rocks. One had a rock when he came around the fence from the Currie stand and the other picked one up at the scene and used it to beat him about the head. The hammer or wrench was also used to hit him about the head.

Seaman said he would not lower himself to go out in the street and engage in a fight with the Curries. The assault was continued for a time and finally a sister and the wife of one of the Currie boys came around and took them home. On the way from the Seaman property the Curries threw rocks through the refreshment stand of Seaman according to his statements.

He admitted that one of the Currie boys had a deformed arm and hand, it was the one who first attacked him and the one who is now a defendant in the action.

Although bleeding from several cuts and bruises and suffering from injuries to his head, back, leg and other portions of his body he went to the home of Justice of the Peace J. Wells Weaver and demanded a warrant before he went to the doctor's to have his injuries attended to. Mr. Weaver called later and testified that he saw several cuts and bruises on Seaman's person when he was at his place.

Mr. Seaman was called to identify pictures of the injuries which he had taken on September 8.

Saw Men Beat Seaman.

Arnold Townsend, who was working at the Seaman gas station on the day of the alleged assault was called. He said Mr. Seaman had erected the sign and come back to the station and was seated when the Currie boys came after him. There had been some remarks passed between the Curries and Mr. Seaman. He saw the attack and had gone over and tried to protect Mr. Seaman's face when the Currie boys were pounding him.

Another man who was a guest at the Seaman house at the time was called. He said he had observed the Curries coming after Seaman with rocks and he had run to the house. It was a cowardly act, he said, but he had gone to protect his three children who were about the place. He turned around once and saw the two men beating Mr. Seaman. Seaman was on the ground at the time. He accompanied Mr. Seaman to the office of Judge Weaver and that evening between 7 and 8 o'clock, Mr. Seaman had come to the doctor's office. The assault took place about 4 o'clock.

The usual motions for a dismissal of the complaint were made and denied at the conclusion of plaintiff's case and testimony on the part of defendants will be taken today.

REBUILDING PRIVATE ROADS AROUND AERATOR.

The City of New York is engaged in rebuilding the private roads around and near the aerator at Ashokan Reservoir. While the work is in progress these roads will be closed to the public day and night. It is understood that the aerator will probably remain out of service until the road construction is completed.

ANOTHER SEVERE FLOOD MENACES NORTHERN QUEBEC

Chicoutimi, Que., May 20.—The Lake St. John district of northern Quebec today faced one of the most menacing floods in its history.

Three towns have been completely cut off by flood waters which rose without warning and the homeless residents are faced with a food shortage. So far no lives have been reported lost. Landslides have swept away many farm homes.

The towns of Petit Saguenay, St. Felicien and L'Anse St. Jean have been isolated. In the latter village damage was estimated at \$150,000. Fifty landslides were reported in that vicinity.

Travelers who left Petit Saguenay before the waters cut off further travel said the river had risen without warning and that only the heroic work of the clergy in warning residents of the approaching flood prevented loss of life.

The last reports from St. Felicien said the water was running through the streets of the village three feet deep.

Settlers were reported marooned on high spots of ground and facing starvation unless relief is carried to them soon.

ULSTER GARDEN CLUB SALE ON THURSDAY

Garden lovers of Kingston and vicinity will be offered an unusual opportunity on Thursday, May 31, beginning at 10 o'clock, when the Ulster Garden Club opens the first of their regular summer series of flower and plant sales.

Arrangements have been made to hold the sale on the terrace in front of the Governor Clinton Hotel and the offering to the public will consist of seasonal and desirable annuals and perennials, a wide variety of choice cut flowers and vegetable plants suitable for the small garden.

Should Thursday prove to be a rainy day the sale will be held on the next clear day.

PINE HILL.

Pine Hill, May 20.—Mr. and Mrs. A. D. Hill and Miss Effie Bertrand made an automobile trip to Oneonta one day last week.

Mrs. Ray Winchel visited her parents at Phenicia last Thursday.

Roy Hitchcock of New York spent the week end in town with his parents.

Miss Mildred Hill, who has been spending the winter at St. Petersburg, Fla., returned to Pine Hill last Saturday.

The different hotels at Pine Hill have been entertaining several guests during the past week. The outlook for a good season is very favorable, quite a number of reservations have already been made.

Max Norton has installed a refrigerator in his ice cream parlor.

Herbert Lasher, vice president of the First National Bank of Fleischmanns, and John Kelly, cashier, were at Pine Hill last Friday.

Theodore Wood and T. S. Cole of Kingston, accompanied by a party of friends, spent the week end at the Molyneux Farm and enjoyed a couple of days trout fishing.

Mrs. Walton Persons entertained the Junior League at her home last Friday afternoon.

Mr. and Mrs. John France and children of Kingston were guests of Mr. and Mrs. Harry France last Saturday.

Fred C. Blodgett has rented the McGowan cottage to New York parties for the summer.

Mr. and Mrs. Howard, who have been spending the winter at Lake Geneva, Fla., returned to town last Saturday and are now at their bungalow at Rose Hill for the summer.

Mr. and Mrs. Atwood of New York have been spending a few days at Pine Hill. Mr. Atwood is connected with the New York American.

John H. Dakin of Roxbury, the piano tuner, was at Pine Hill on Monday.

Miss Emily Smith, telephone operator in the Pine Hill central station, has been compelled to give up that position on account of ill health.

The Ladies' Society of the Presbyterian Church held its weekly meeting at the church hall last Thursday afternoon.

OLIVERIA.

Oliveria, May 20.—Most of the boarding houses in this vicinity will be accommodating city guests over Decoration Day.

The public school closed on Monday.

"OH, DEAR, I HAVE NEVER HEARD SUCH GOSSIP IN YEARS, AND YEARS!"

Women at Oxford.

There seems to be nothing to do about women except to tolerate them. No effort to bar them ever lasts. Oxford university's decision to establish a female quota of one in four is no more likely to stand the test of time than the earlier efforts to keep them out altogether. It is only seven years since women were first allowed to take the Oxford examinations; and it may be less before they take another trench, says the Nation. As Principal Margery Fry suggests, the real opposition to them is in itself a confession of defeat. "Women are such beastly grinds," one Oxford undergraduate is reported as saying, "that the standards of examination are going up." It may even happen that the influx of women will change the emphasis of Oxford to such a revolutionary degree that the cables will carry other Oxford news than that of undergraduate styles in trousers.

Industrial progress is more secure, though less spectacular, when small factories owned by a small group of men skilled and experienced in the business come here to grow up with the city than when great industries are promoted by men whose occupation is to sell stock, not to produce useful goods, says the Indianapolis News. The former type of industry is run with skill and economy at the lowest practicable overhead cost; the latter type is loaded from the start with a weight of overhead cost that drags it down to bankruptcy, and often has a manager selected because he bought a large block of stock rather than because he has ability and knowledge of the business. The track of industry is strewn with the ruins of the big speculative industries, but is lined with prosperous factories that have grown to greatness from small beginnings.

Faith is a great curative agency, and no one can doubt the popular confidence in a prescription. The blacker and more bitter the mixture the deeper the belief in it. Indeed there is a fine graduation of faith from blackness and bitterness through brownness and redness to colorlessness and sweetness. It may be hinted accordingly that panel doctors who are lavish in their distribution of bottles may, nevertheless, be quite up to date in their treatment, and are perhaps not at all deserving of being labeled old-fashioned and being subjected to some of the criticisms which have been directed against them.

Young men who do not know what they are talking about often say that there are not the opportunities to get on in the world that there used to be. They think their fathers and grandfathers had more and better chances. But old men know better, says the Mobile Register. They know that it was a harder struggle to make good then than it is now. John D. Rockefeller told the truth not long ago when he said that there are ten opportunities for a young man now to one in his early days. Only the ignorant man thinks today's chances in life and business are not as good as they used to be.

For years we have been doing the hog an immeasurable injustice. We say a man eats like a hog to designate a gross and uncontrollable appetite. As a matter of fact, a hog never overeats, says the Atchison Globe. A hog can be trusted implicitly to eat just the right amount. Hog men say the best way to feed a hog is to use automatic feeders to allow the hog to use its own judgment in feeding. So we apologize to the hog.

The wife of a man whom a Story City girl sued for breach of promise because he failed to keep his pledged troth to get a divorce and marry her, should interplead to obtain whatever judgment is awarded the plaintiff as damages for alienation of her husband's affections.

GOOD DISHES

There are a few good and simple dishes which will not be found difficult to prepare nor a strain on the family purse:

Betsy's Pudding.

Take one cupful each of suet, brown sugar, raisins, currants or chopped prunes, grated carrot, grated potato and one-half cupful of ground orange peel, one lemon peel, one-half teaspoonful of grated nutmeg, one teaspoonful each of cinnamon and cloves. Mix well and steam three hours.

Bread Crumb Pudding.

Take two and one-half cupfuls of breadcrumbs, one cupful of sour milk, one-half cupful of shortening, one egg, one teaspoonful of soda, one cupful of raisins, one cupful of any kind of preserves, one cupful of sugar, cinnamon and nutmeg to taste. Steam two and one-half hours. Serve with any desired pudding sauce.

When making lemon pie, remember not to add the lemon juice until the cornstarch and egg have been well cooked, as the acid with the heat has a tendency to thin the mixture.

Almond Delight.

Make a rich pastry, line a pie plate and fill with the following: Blanch and chop fine one cupful of almonds. Put a cupful of granulated sugar into a frying pan with one teaspoonful of water, stir and cook until the sugar turns a golden brown. Turn this at once into the pastry shell before it cools. Beat three eggs, add two tablespoonfuls of sugar and a pint of milk. Pour over the crust with the almonds and bake in a hot oven at first, to cook the pastry, then lower the heat. Cover with a meringue or with whipped cream and serve.

Raisin Pie.

Cook one package of seeded raisins in one and one-half cupfuls of boiling water for five minutes; pour into this one cupful of sugar that has been well blended with four tablespoonfuls of cornstarch. Cook until smooth and thick, remove from the fire and add two tablespoonfuls of lemon juice, one tablespoonful of grated lemon rind, the juice of an orange and a tablespoonful of the orange rind grated, one cupful of walnut meats. The nuts may be omitted if desired. Bake between two crusts.

POUGHKEEPSIE POLICE TO CLOSE 100 SPEAKEASIES

Proprietors of the one hundred or more places in Poughkeepsie where liquor is sold to be sold, will be summoned individually to appear before Police Chief William J. Sheedy and ordered to close their establishments or suffer the consequences. If they fail to heed this advice, they will be summarily closed, according to Manning Cleveland, president of the board of police commissioners of that city.

PHOENICIA

Phoenicia, May 23.—Mr. and Mrs. Leland Boice and son, Raymond, of Hurley Boulevard called to see Mrs. A. Perry Loomis Wednesday. They also visited H. Boice.

Several here have been ill with intestinal grip.

Miss Harriet Loomis, who was recovering from bad attack of intestinal grip and was able to be out and around, was again taken very ill. The poison of the system settled in the throat giving her quinsy tonsillitis. She is now convalescing from this and all trust she will soon have her strength back.

The fruit trees have been loaded with blossoms and were sights of beauty.

Clara Young is recovering from indigestion.

All are glad to learn Mrs. O. Hill is getting better.

L. Gosso is doing some carpenter work for A. P. Loomis.

All are glad that Mr. Gormley is able to be out again after his recent illness.

A firing machine passed over here Wednesday and Thursday. It flew so low the numbers could be read.

Garden planting is late.

C. Mooney is back here after acting as relief agent at the Shandaken station.

T. J. McGrath has recovered from an attack of grip. He will move his family to Albany in the near future. He is a mail clerk in the Albany terminal.

Mrs. T. J. McGrath is entertaining friends from Brooklyn.

Mrs. H. Tremper is entertaining relatives.

COD LIVER OIL.

When a financial paper begins to talk about vitamins from the dollar and cents standpoint, the recognition of these wonderful new elements as a real factor in human life is established.

You will remember that cod liver oil has been used for many years as a body builder, but it was thought that it was the oil in itself that was the important part.

However, when it was found that cod liver oil had the same effect in curing softening of bone, and wasting illnesses, as did the rays of the sun, it was discovered that it was the vitamins in the oil that did the effective work. Cod liver oil was then christened "bottled sunshine."

Now the two sources from which the United States and Canada get their supply of cod liver oil is Norway and Newfoundland.

There has always been a controversy over the merits of the oil from these countries.

Norway claims to have the best oil from the standpoint of color, taste, and smell, but admits that Newfoundland oil is as rich in vitamin content.

DAILY RADIO PROGRAM

Thursday, May 31.

Gene Austin, famous American tenor, will be the guest artist of the Maxwell House to be broadcast by WJZ and the Blue network at 9 o'clock Thursday night. Mr. Austin's solos will be "Ramona," "Tomorrow," "Lonesome Road," "Girl of My Dreams" and "Voice of the Southland." Mr. Austin will share honors with Nathaniel Shilkret's orchestra which will play selections from some of the best known operas. A program by the Ell Soldiers, Billy Jones and Ernest Hare, which will be relayed by WJZ and the Blue network at 10:30 promises to be one of the most interesting highlights on the air. Hereafter, this will be a regular Thursday night feature. An exhilarating half-hour for the "fired business man" has been planned as the Dodge presentation through WJZ and the Red network at 8. An unusual collection of instrumental and instrumentalists, blended with vocal soloists and quartets, guarantee that "a good time will be had by all." Features for 8:30 include a concert from the Women's Conservatory of Music through WMAK, the graduation exercises from the Atlantic City Hospital Nurses' Training School through WJZ, and old time music by the Edgeworth country fiddlers through WJZ.

Wave lengths in meters on left of station title, kilocycles on the right. Times are Eastern Daylight Saving and Eastern Standard. Black type indicates best features.

Sunday guests of the Ellsworth family.

Mr. and Mrs. George Moir, Mrs. Mary Hurd and Mrs. Alice Van Aken of Stamford, Conn., were week-end guests of Mrs. Cynthia Terpening.

Those who were absent from the church service on Sunday, missed hearing an excellent sermon. The text was John 1st Chapter, 4th verse.

Mrs. Harry Ellsworth and daughter

ter, Beatrice, Mrs. E. Ellsworth and Mrs. Lydia Echnach were Saturday guests of Mrs. A. Raschke at Kingston.

Mrs. Charles E. Schultz had an operation at the City of Kingston Hospital on Saturday. All hope for her speedy recovery.

Friends may come and friends may go, but critics go on forever.

Flashes of Life Sketched in Brief

(By The Associated Press.)

New York—Mrs. James A. Smith, who is to publish a magazine to which she will contribute articles of stories and other things appealing to women. Associates with her in the management will be H. Phelps Chase, editor, and John.

Dublin—May, 24, back from a tour of the United States, believes that in 25 years Chicago will be almost as impressive as New York. He regards Chicago as "a darker, grimmer city, but with a stern beauty of its own."

New Haven—Bruce Caldwell, 47, died in the tenth century. He was a student of Yale University.

Philadelphia—Several dozen shut-ins will follow the custom of attending with baseballs autographed by Babe Ruth. He visited when he visited the Eastern State Penitentiary and gave a talk on baseball.

New York—The agreement of Ruth Chatterton and Ralph Forbes to divorce seems to include an automobile. A coupe used by the actress and her leading man and husband in happier days is to be sold at auction because of non-payment of storage and other charges totaling \$121.59.

Toronto—What is a 2,500 mile trip by automobile to a mother when her boy is in trouble? Nothing, thinks Mrs. Peter Storm. "Any mother would have done the same thing." She plans to return to Saskatoon with her 22 year old son in the same manner she came.

New York—Lost, strayed, stolen, missing, hiding or seeking a square deal, Leo Feuer, aged 18, weight 276 (when last recorded). His parents sent him to a hospital a month ago to reduce. Then he weighed 288. He has vanished.

Rome—Prince Potenziani, governor of Rome, is back from the United States, astonished as much.

as pleased over President Coolidge. He talked to us over 20 minutes, explained the price.

Kisilev, Russia—in some red schools children write in red. For economy's sake use of ink is prohibited here. Pig's blood or huckleberry juice is used instead.

Haute—Andrew Bournisien, who once crossed the English channel in a canoe, is on the way to make a 4,000 mile trip in the Amazon. His party will have two 25 foot canoes.

ACTIVITIES AT RONDOUT PRESBYTERIAN CHURCH

The subject for the Thursday evening service in the chapel of the Rondout Presbyterian Church will be "The Gospel and Spanish Speaking Americans." At the close of the service there will be a brief meeting of the Ladies' Aid Society.

SHANDAKEN.

Shandaken, May 28.—F. S. Osterhoudt and J. S. Ford went on a fishing trip to Sullivan county one day last week and came back with a good catch of trout.

Leon B. Buley has had his house shingled and painted, which adds very much to its appearance.

Mr. and Mrs. Charles Jocelyn of Kingston visited Mr. Jocelyn's mother on Sunday.

Mr. and Mrs. F. S. Osterhoudt entertained some friends from New York city on Sunday.

The people of this vicinity were grieved to hear of the death of Dr. Hideo Noguchi, the famous bacteriologist of the Rockefeller Institute, New York city, who died recently. Dr. Noguchi had a summer home here to which he loved to come and he had many friends here, who will miss his annual visits.

A committee was appointed at the last meeting of the Ladies' Aid Society to make some improvements to the church hall.

Mid-week prayer service this week will be held at the home of Mr. and Mrs. Leonard Ford on Wednesday evening.

The board of trustees of the M. E. Church were appointed a committee at a meeting of the official board on Wednesday night to make arrangements to bring water to the church parsonage.

Colored Women Arrested.

Ruth Reed, Margaret Raglan and Ella May Williams, all colored, were arrested at East Kingston, Saturday night on charges of public intoxication. They were arraigned before Judge Charles P. Jennings of the town of Ulster at Lake Katrine, and each given a fine of \$10 or ten days in jail. The Reed and Raglan women paid their fines on Sunday after being brought to the Ulster county jail, but Ella May Williams not being able to raise the necessary fine is in jail.

As over-dependable shoe for the purest comfort, gentlest arch support and surest correction of foot troubles.

This Oxford takes hours off the working day, and keeps one's feet entirely off one's mind. It is made in soft tan kid skin and in white linen. It is severely plain but the wonder shoe for day-long duty.

Every Cantilever Shoe is made with a flexible shank, so that the important foot muscles can gain strength through exercise, thus correcting or preventing weak arches and kindred ills. By keeping the foot well balanced and permitting it to function naturally, Cantilever Shoes enable you to go easily through a busy day.

These shoes fit the heel; they hug the ankle; they fit the arch; and they provide room for the toes.

They give you a beautiful fit—and a comfortable foot.

Come and see them.

Provisions of Zoning Ordinance

Corporation Counsel H. H. Flemming explains to few interested residents the Provisions of Law—New Zoning Map Displayed—Broadway All Business District.

The provisions of the proposed new zoning ordinance were explained by Corporation Counsel Harry H. Flemming at the public hearing held Monday evening in the city court room in the Municipal Building, which was attended by half a dozen of the interested and about the same number of interested citizens. Mayor E. J. Dempsey presided.

The new zoning map that had been prepared by City Engineer G. Wallace Coddie was also ready for inspection. Among other things the map shows that Broadway for its entire length is included in the business district.

The new zoning ordinance divides the city into three districts—residential, business and industrial, and the zoning board will have complete control of enforcement of all three districts. Applications for building permits are to be made to the city engineer eliminating the time now lost in first applying to the board of public works and then, if the application is denied, going before the appeals board.

Under the new ordinance the city engineer can issue building permits for buildings to be erected in any conforming district. If there is any question about the building not conforming to the district the application goes to the zoning board for determination.

The highly restricted district under the new ordinance is the residential district. If there is a store already in the residential district it remains but, if in the course of time, the property again becomes residential and before the property can be used for business purposes again application must be made to the zoning board.

In the residential districts a property owner on a lot 50x100 feet has the privilege of erecting a two-car garage. The limit on the size of a garage in a residential district, however, is three cars, and that depends on the size of the lot.

The zoning ordinance does not conflict with any ordinances of the fire board now in effect.

It also eliminates the erection in residential districts of what is known as a "split" fence. The height of a fence dividing property lines is from 4 to 5 feet.

Several questions were asked by those in attendance and were answered by Mr. Flemming.

It was announced that the zoning map would be on display at the city engineer's office in the Municipal Building where any one interested could see it.

Old gravel and other material have been hauled to Velle road just south of Marlborough village and all was set to begin work the first of this week on the much needed reconstruction work of that highway.

However it was discovered that the belt was missing from the stone crusher. A new one was sent for at once as soon as it was made certain the missing article was not to be found. It has not been found yet and the authorities are convinced that it was stolen. The belt is a heavy one of the endless type and hard to duplicate. Its cost is somewhere around \$190, so it is a real loss to the town in money as well as a delay in road work. A reward of \$25 is offered for information leading to the arrest of the thief.

Mrs. Frank Hannigan and Mrs. Richard Downer visited friends in New York city recently.

Mr. and Mrs. P. Manion were guests of Mrs. Manion's parents, Mr. and Mrs. William Tierney, in Newburgh on Wednesday afternoon.

Improved Kotex

Delightfully Soft—Unbelievably Comfortable

Regular price was 65c, NOW 45c—buy it now at any dealer's

THE vast majority of women doctors and nurses would tell you, if you asked them, to employ Kotex.

For they say that too much emphasis cannot be placed on the sanitary pad one uses.

Now Kotex—supreme in the features that have brought to women a new hygiene, with attendant peace-of-mind—has been improved.

In improving Kotex we were careful to make no changes in the features women already liked. There is the same highly absorbent surface. The same instant disposability. The same deodorizing. The same simplicity in making your purchase.

But after experimenting two years, we have perfected a new shape for Kotex. One not only more comfortable but which prevents awkward bulkiness to mar smooth fashionable lines.

And we have perfected a fleecy softness never known before, ending all chance of irritation—of chafing or binding.

Now, the greatly increased sale of the Kotex with these two great improvements has made it possible permanently to reduce the regular price considerably.

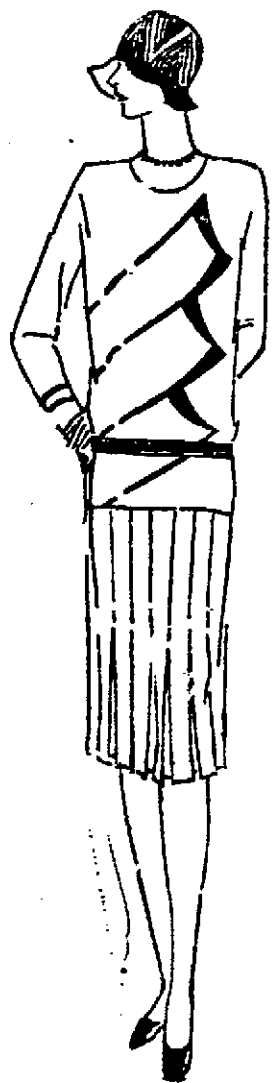

Now buy the Improved Kotex, at the new low price at any drug, department or dry goods store. Get it today.

ELEANOR GUNN ON FASHIONS

The Two-Piece Linen, or Crepe, Frock Is An Exciting Sports Entry—Yellow Proves a Favorite in Summer Outdoor Events.

New York—Linen again! What a refreshing thing to think about, with the thermometer soaring! Even the most enthusiastic advocate of crepe de Chine and tub silks cannot but rejoice at the opportunity to wear linen and decorative cottons again. Why should one material be chosen to be worn every hour of the twenty-four, as has crepe de Chine?

Of course, the printed linens provide the most interest. They are charming, varied in design, and altogether lovely in their color assortments. One must not forget the new greens in thinking about the linen frock for summer, or overlook the

charming combinations of color, which include yellows and sepia tones, or sepia with white, one of the smartest color schemes of the year.

When linens were in vogue before, it one can remember so far back in favor. One can keep a linen crisp fresh with greater ease nowadays besides which linen is combined with other materials. You may remember how chic a white pique or linen jumper can be with a jersey, kasha, or tweed ensemble.

In reviewing the sports wear of fashions at the better shops, it becomes apparent that yellow is a favorite color again for the great open spaces. The softer, spectator type of frock is also featured in yellow and tones that fraternize with it. Blue is a runner-up.

ELEANOR GUNN On Fashions

This Season Promises to Be a Colorful One—Linen, in for a Strong Revival, Take Color and Appear in Printed Effects—Organdie is Treated to A Cre Finish—The Wooden Hat

New York—The reentry of linen is one of the most interesting and important changes brought about this season. In the wake of linen are bound to come novelty cottons, and a general interest in such fabrics as wash well. This includes also more shirring silks, dresses of this cool and satisfactory material being worn in sleeveless as well as long sleeved effects. Pique is another washable material enjoying a revival in color rather more often than in white.

The season, judged from the offerings to date, promises to be one of the most colorful in years. To revert to the subject of linens, it is well, though it seems unnecessary, to state that it is colored novelties that lead. Printed linens have sponsors among the best-dressed women—for that matter, what material is exempt from being printed? Jersey and velvet certainly are not. So long as designs seem to be inexhaustible, there seems little danger of prints losing their attraction for women of all ages and classes.

Glossy Materials Abound.

One cannot dismiss the so-called wash fabrics without a word for that aristocrat of fabrics, organdie, which has been treated to a cre finish this season. Chanel is among the several who have found it a charming medium for the bouffant type of dress. Cre chiffon is also in use, and this, coming at a time when glazed chintz has scored for sports, leads one to believe that dull-surfaced materials may be suffering a setback and that gloss is now the thing.

This is true, to a large extent, of straw hats, which are holding their own, despite the fact that women have formed the habit of wearing felt. One of the sensational reports from the Paris races, now at their smartest, was of a wooden hat. It has not, we admit, an attractive sound, but that it is novel, who can deny? The wooden hat is in vogue, and as novelty is worthy of mention, but one scarcely expects it to develop beyond the sensational stage.

Glass Buttons Appear.

Among the other novelties that have remained after digesting Paris as used by Claire and matched to buckles, and one-sided color effects as exploited by Heim, especially for coats. There is also frequent mention of fur, especially baby

goat. Otter and mole are also among the pelts represented in smart collections.

The cape-cape, an affair in tiers and of Molyneux conception, is another headline in the midseason collections. The sleeveless cardigan remains, and the sleeveless sports dress reappears.

Tweeds Are Important.

Pleated skirts continue for sports and day wear, and for evening any means producing movement and fullness is justified. The general rule is that hemlines must do the extraordinary thing, but it has already become a habit with them to drop several inches, if not more, at the back.

In America, the well-dressed woman has some sort of a tweed ensemble, coat, or dress in readiness for country days, or for travel. Tweeds are distinctly the mode and demand the utmost care in tailoring, so that they may appear to be most casual. While formality is the prevailing spirit for town clothes, simplicity is the one and only goal for the country.

THREE WOMEN HANDLE COUNTY'S COURT WORK.

Piggott, Ark., May 29 (AP)—Man's domination in the court house of this county seat is threatened. Already there are three deputy county officials and the courts even went so far as to remove minority restrictions so that one of them could take office.

When Miss Cicela Templeton was ready to be sworn in as deputy clerk of the county and probate courts two years ago, it was found she was only 19 years old. The law said no one under 21 could hold the position, but the courts issued the necessary orders for her to take office. One of her duties is issuing marriage licenses.

Mrs. Maude McNeil is deputy sheriff and tax collector in the office of her husband, Sheriff George A. McNeil. She did effective campaigning in the election which placed him in charge of the routine duties of the office. Aside from her official duties Mrs. McNeil finds sufficient time to devote to her three children, take an active interest in women's affairs and write poetry.

The circuit and chancery courts have Miss Irma Mobley as deputy clerk, a position she has held since 1925. In point of service, she is the oldest of the three women deputies.

Charge Hicks With Car Theft

George M. Hicks of Hudson street, arrested today by the police on a charge of grand larceny in stealing a Buick sedan of Rosecoe Paul, Kingston High School faculty member, and later abandoning it in the main street in the village of Canajoharie where it was later found. Hicks was held to await a hearing in court on Thursday.

PAIRS FLOCK TO PARIS, BUT NONE FOR DIVORCE

Paris, May 29 (AP).—American stars have been flashing into Paris in large numbers in recent months, and not a single one came for a divorce.

On the contrary some came over to get married, notably Adolphe Menjou and his co-star, Kathryn Grey. Pola Negri had done the same the year before, getting a title with the husband, just as Gloria Swanson and Mae Murray had done before her.

Ramon Novarro arrived in Paris in the wake of Menjou, both receiving a big welcome from the public, which considers them representatives on the screen of "Latin civilization," in a world overclouded with Anglo-Saxon celluloid. The boat train from Havre also brought Douglas Fairbanks and Mary Pickford, and anyone could tell by looking at them that they hadn't come for a divorce.

Betty Nuthall Eliminated. Autell, France, May 28 (AP).—Betty Nuthall, young English tennis star, was eliminated from the women's singles of the international hard court championships today by Mlle. Alice Charolet of France, 6-4, 6-4. Her defeat in straight sets and in an early round was a distinct upset, as the English girl had been one of the favorites.

INNOCENT NEGRO FREE AFTER 13 YEARS IN PRISON

Columbia, S. C., May 29 (AP).—Conscience and justice have set Ben Bess, Florence county negro, free after 13 long years behind the bars as innocent man.

The woman whose testimony sent the negro to prison on charges of assault for 30-year term has died an invalid, part of which reads:

"Since I have not much longer to live, I hereby desire as much as possible to undo the great wrong I have done this negro, Ben Bess, and I hereby declare my testimony upon the trial of this case to be untrue."

Justice acted when Governor Richards gave Bess a full pardon.

When Bess went to the penitentiary he had some property. He lost this and when he was given his freedom he was destitute. Governor Richards sought to have financial aid given the man from the State Contingent Fund, but was told that no legal means of doing so existed. The governor then expressed the hope that the South Carolina Legislature at its next session could take steps to right the wrong done this negro.

A Columbia newspaper has started a fund for Bess and this has reached \$364.

The white woman who caused Bess to be sent to prison failed to give any reason for her false testimony in her affidavit.

WOMEN TRAFFIC CHIEFS TO EXCHANGE IDEAS

San Francisco, May 29 (AP).—Woman's more or less unheralded invasion of an executive field comparatively new to the sex will be apparent in the meeting here June 12 and 13 of approximately 50 feminine traffic experts from widely separated parts of the United States.

The Women's Traffic Club of San Francisco will be the host, acting with the Pacific Traffic association which will entertain the sixth annual convention of the Associated Traffic Clubs of America.

Exchange of ideas and discussion of problems that confront the woman traffic manager or traffic expert will constitute the business sessions. The subjects include handling of commodities by rail, water and airplane.

Positions filled by delegates who will attend range from railroad jobs to traffic managers of salt manufacturing companies.

BELGRADE STUDENTS FIGHT POLICE IN EARLY MORNING

Belgrade, Jugoslavia, May 29 (AP).—Four students were seriously wounded and twenty-six others injured in a drawn battle early this morning between police and students who were demonstrating against the ratification of the Nettuno convention. The conflict was ended at 3 a. m. when reinforcements of Gendarmes and mounted policemen arrived.

A. Bordrere, Italian minister, today lodged a written protest against continued anti-Italian demonstrations in Jugoslavia with the government. It was couched in most peremptory terms.

He demanded the immediate and severe punishment of all Jugoslav authorities in the affected districts for their alleged laxity.

"INTERESTS" PAID \$15,000 FOR HUNGERFORD'S BOOK

Rochester, N. Y., May 29 (AP).—Public utility interests in Rochester paid \$15,000 to underwrite publication of "The Story of Public Utilities" used in Rochester public schools. F. W. Fisher, director of public relations of the Rochester Gas and Electric Company, said today.

The book, written by Edward Hungerford, came under inquiry yesterday at the hearing conducted by the Federal Trade Commission at Washington into the use of propaganda by utility interests.

Herbert S. West, superintendent of schools, today said there was no propaganda in the book.

KINGSTON FOLKS ENJOY PARTY AT WOODSTOCK

On Saturday afternoon, May 26, a party of Kingstonians went to the Twin Gables of Woodstock for a luncheon and bridge. The following guests were present: Mr. and Mrs. W. P. Prisoner Had Brief Hours of Pleasure

A truly Gilbertian situation is described by Francis Carlin, late superintendent at Scotland Yard, in his "Reminiscences of an ex-Detective." Mr. Carlin was once sent to New York to take back to England a well-known absconding lawyer. They returned on the Celtic. The relations between Mr. Carlin and his prisoner were perfectly friendly on the voyage, and to one on board even suspected the truth.

The lawyer, most popular with passengers, was constantly in demand to organize deck games. On each occasion he went quietly to Mr. Carlin and inquired if he would mind.

"Certainly not," the detective told him.

Then came the inevitable ship's concert. The lawyer was invited to take the chair.

"Of course my uncle will act as chairman," butted in Carlin, "and I'll sing you a song."

"And an excellent chairman my prisoner made," said Carlin. "He was accustomed to preside over meetings. He made a most telling speech on behalf of the seaman's charity, and then went on to announce the turns—including my own, and to give the audience an interest in each."

The lawyer got five years when he arrived home.—Kansas City Star.

Wild Creatures Able to Foretell Danger

In addition to the five senses human beings enjoy, it seems that animals and birds have one that enables them to divine a little of the future and what it holds for them.

The saying, "Birds will leave a sinking ship," indicates a strange foreknowledge on the part of these creatures.

Fish, birds, and animals are invariably true weather prophets. Sea-birds know in some curious way when a storm is approaching. Though the weather is fine and the sky gives no warning of a coming storm, they are moved by some common impulse to make their way inland. Wild geese will also fly from the approach of a thunderstorm.

Ants will desert their nests, taking their babies with them, 24 hours before the outbreak of a forest fire.

Rabbits will leave burrows made in low-lying ground before a flood occurs. They have some weird premonition which forces them to seek higher ground before the danger is upon them.

"Unpardonable Sin"

Theologians differ as to the exact nature of the unpardonable sin, which is the sin against the Holy Spirit. In Matthew 12:31, 32, Jesus says: "Wherefore I say unto you, All manner of sin and blasphemy shall be forgiven unto men but the blasphemy against the Holy Ghost shall not be forgiven unto men. And whosoever speaketh a word against the Son of man, it shall be forgiven him; but whosoever speaketh against the Holy Ghost, it shall not be forgiven him, neither in this world, nor in the world to come." The context indicates that the unpardonable sin consists of denying out of pure malice the divine character of works manifestly divine.—Pathfinder Magazine.

Canal Built in Midair

The reclamation authorities resorted to a novel expedient in the building of a canal along the side of a mountain at Yakima, Wash.

Down in the valley below there was plenty of water, sand and gravel, all the essentials, in fact, needed for concrete. Up the mountain side, 500 feet higher, none of these essentials was available. Accordingly, the engineers decided to mold the concrete sections for the canal lying in the valley and hoist them into position. A trolley was rigged from the valley up the mountainside and by this means the concrete sections of canal lining, molded down below, were hoisted into place.

Radium in All Springs

Not only is there radium in spring water, but all spring water is radioactive to some degree, reports W. D. Collins of the United States geological survey. After three days, however, the water loses half of its radio-active "kick," and in thirty days practically none remains. At all times, the quantity of radium in the water is so small that only the most delicate tests enable chemists to detect its presence. In order to have any effect on the human body it would be necessary to drink at least 400 quarts a day.—Popular Science Monthly.

The Infantry

Jack and Bobbie had come to visit Billy, age seven. The three little boys had been playing together quietly for some time when suddenly Billy's mother heard one of the children crying. She hurried into the room where they were playing and found Jack and Billy astride a trunk and Bobbie standing beside him, wailing dismally. "Why, Billy," she exclaimed, "why don't you let Bobbie on the trunk too?"

"Oh," returned Billy, "he's the infantry."

America's Great Debt to Pioneer Mothers

Pioneer mothers played a great part in American annals. Following the ones they loved they made homes spring up in the wilderness. From helping to build the cabin, raising the little crops, wearing the clothes, down the long range of centuries tell which frontier life holds, they were co-workers with the men who gave America 48 states instead of 13. Let A. Kazmark write, in the National Republic.

Around the wide-mouthed fireplace at night in the isolated cabins these mothers of American yesterday laid the foundation stones of Twentieth-century progress. Here they taught lessons before the coming of the schoolmaster; here they taught religion from the precious family Bible long before the steeple of white churches dotted the landscape. All the seeds of civilization they planted on each new frontier, as the men plowed the wheat in the newly turned soil, drained the swamps and felled the forest. Father, mother, teacher, preacher—all these in one was a typical pioneer woman who furthered the cause of America.

Incorrect Belief as to Growth of Trees

A marked oak tree began growing on April 17, and grew regularly until May 23. Then it began a rest period of 32 days. On June 24 it started to grow again and continued until July 13.

At the beginning of the season it grew for 30 days, then rested for 32 days, and thereafter grew again for 20 days. During the first growth period it grew ten inches, an average of about one-third of an inch a day. This proves that the belief that trees grow from early spring, when the leaves begin to come out, until the first frost, when they start to show their autumn color, is not correct. For instance, in the latitude of southern Pennsylvania the native forest trees make 90 per cent of their height growth in 40 days of spring and early summer. Trees are fighting for their lives all the time.

Women Geographers

The Society of Woman Geographers is a society organized in 1925 by a group who felt that there should be some medium of contact between women distinguished in geographical work and its allied sciences—ethnology, archeology, botany, natural history, sociology, folklore, arts and crafts, etc. For active membership in this society only those women are eligible who have done distinctive work whereby they have added to the world's store of knowledge concerning the countries in which they have traveled. Corresponding members are those who fulfill the requirements for active membership, but who reside outside the United States of America and Canada. The associate membership admits widely traveled women who are interested in furthering all forms of geographical exploration and research.

Distinctive Brigade

The name "Orphan Brigade" was given to a body of troops because they had to leave their own state to join the Confederacy. "Different accounts have been given as to how the command acquired the designation of Orphan brigade. Its attitude towards its native state—expatriated by reason of identification with a cause which Kentucky had not formally approved; its complete isolation from its people; its having been time and again deprived of its commander by transfer to other service, or death in battle—these, all and singular, may have suggested the name which soon fixed itself in the popular mind, and has come to be the real one by which it will be known in history."

Stone With a Legend

There is only one stone to be found in all Lithuania, where even the paving cobble for the town streets have to be imported from abroad. This solitary stone, a relic of the Ice age, lies in a forest, and being unique has a name of its own, "Puntukas."

The country people say that the devil picked up the stone—one can still see the marks of his claws—to destroy Anykschal church. He hurled it, says the Washington Star, at the church, but missed, and only broke off the tops of the two steeples. And two truncated steeples—the only ones in all Lithuania—are there to this day to prove it.

Earliest Newspapers

An authority is inclined to give the credit for the earliest European newspaper to The Netherlands. A Nieuwe Zeitung, or New Newspaper, was founded dated in 1520 and telling of the great battle with the Turks. But back in the days of old Rome there were the Acta Diurna, or Daily Events, which regularly chronicled battles, elections, games, religious rites, etc. That daily paper, or bulletin, lasted to the fall of the western empire.

The young married couple were having lunch at a modest eating-house. The woman was grumbling because they were unable to afford the luxurious restaurant which had been a feature of their honeymoon.

"You can't have a brass band everywhere you go," said the man, crossly. "Oh, yes, I can," snapped his wife. "I've got it on me now—on my finger."

REAR ADMIRAL COONTZ QUILTS NAVY JUNE 11

Washington, May 29 (AP).—Rear Admiral Robert E. Coontz, who has held the two highest posts in the United States navy, will retire from active service on June 11, his sixty-fourth birthday.

From 1923 to 1926 he was commander in chief of the United States fleet with the rank of admiral, the ranking naval officer afloat, and for four years before that he was chief of naval operations, the ranking naval officer on land. Admiral Coontz commanded the fleet on its goodwill cruise to Australia and New Zealand in 1925.

A native of Hanibal, Mo., and nephew of Mark Twain, Coontz was in early life a close friend of Twain, and the humorist mentioned him in some of his writings.

Since 1925 the rear admiral has been commandant of the fifth naval district at Hampton Roads, Va. He holds the distinguished service medal.

SIX STATES BEHIND IN BIRTH REGISTRATION

Washington, May 29 (AP).—A final intensive drive is being launched by the United States Children's Bureau in its campaign to bring every state into the birth registration area by 1930. There are six states that have not yet complied with the Bureau of Census requirement of a 100 per cent birth registration: Nevada, South Dakota, Colorado, New Mexico, Texas and South Carolina. The bureau, with the aid of negro physicians, was able to bring Louisiana and Georgia last year into the area.

LEGAL CARE FOR NURSES CATHOLIC GUILD TOPIC

May 29 (AP).—A legally organized guild for registered nurses will be proposed at the annual convention of the International Association of Nurses, which meets here today.

The Rev. Edward J. Garasche, spiritual director of the guild, will propose the formation of a distinctive guild of nurses, organized to protect the interests of the nursing profession and to promote its use by persons who are not qualified nurses, and to provide a link of qualification between the nursing profession and the public.

The guild will meet in conjunction with the annual convention of the Association of Nurses and the Hospital Council of North America.

C. & D. BONDHOLDERS MAY SUE STOCKHOLDERS

Notices have been published by a bondholders' protective committee asking holders of C. & D. bonds to send the committee a list of the names of the stockholders of the General Trust Company of New York city, where the committee will endeavor to care for the interests of the bondholders.

The principal of these bonds falls due June 1 and the committee states that it is informed that the company will not be able to pay them on maturity and that the company has taken no steps to float a new issue.

According to the announcement of the committee legal action against the stockholders is contemplated on the ground that money received from New York city in 1913 should have been retained for payment of bonds instead of being paid out as a dividend to stockholders. It is interesting to note in connection with the C. & D. bonds, an issue selling in the financial markets about 12 points higher than the low of the year.

Columbias Trim The Artistics

Tagging Major League Bases

Centrals in Dual Bill Wednesday

Tommy Lewis, pitcher for the Artistics, was the main attraction in the game between the Artistics and the Columbias at the Athletic Grounds last night. The Artistics won the game 3-1. Lewis pitched a complete game, allowing only one run, one hit and one error. The Artistics scored three runs in the first inning on two hits, one of which was a home run by Lewis. The Columbias scored their only run in the seventh inning on a single by Lewis. The Artistics won the game 3-1.

KENTUCKY DERBY WINNER RECEIVED A \$50,000 KICK

Chicago, May 29 (AP).—Mrs. John D. Hertz, of Chicago, believes she and her Kentucky derby winner, Reigh Count, are the victims of a \$50,000 kick.

While at the post in the derby the big and Chicago colt was kicked, suffering a cut about an inch long on his left hind leg. When the wound appeared to be healing, he was entered in the \$50,000 Belmont stakes, June 9. Yesterday it was announced he had been withdrawn as the cut still was sore and bothersome.

Mrs. Hertz was confident Reigh Count could have won the Belmont stakes and thereby establish full claim to three year old supremacy as well as become the biggest money winner of recent years. The colt will be transferred this week from Churchill Downs, Louisville, to Arlington Park, Chicago.

KINGSTON HIGH VARSITY TO MEET RAYMOND RIORDAN

The Kingston High School varsity baseball team will endeavor to put one over on the Raymond Riordan nine Memorial Day afternoon at the Kingston Fair Grounds to offset the defeat handed the locals by that club some time ago. The Highland team was the only aggregation to register a defeat over the high school players this year and the result was a close one, the score being 2-1.

It is expected that Paul Joyce will do the pitching for the varsity. He hurled against the Riordan nine the last time and allowed but three hits. His opponent, Eckert, was found for two blows by Kingston and it is most likely that he will be Joyce's rival in the coming battle. The Raymond Riordan team has not been scored over this season.

Claims for Mistle

Don't mistake hard boiledness for courage. The fact that there is no rain doesn't mean that you are a son of mistle.—Farm and Fireside.

(By The Associated Press.)
The American League's first, and possibly last, National League game, played at the Athletic Grounds last night, was a close one. The Artistics won the game 3-1. Lewis pitched a complete game, allowing only one run, one hit and one error. The Artistics scored three runs in the first inning on two hits, one of which was a home run by Lewis. The Columbias scored their only run in the seventh inning on a single by Lewis. The Artistics won the game 3-1.

The last engagement saw the champions steamroller the Mackmen into submission, 11 to 4. For the second time in the series, the famed speed of Ledy Grove failed to stop Babe Ruth and Company. Grove was most for the champions in the first game last Thursday and it was no different this time. After his teammates had given him a four to two lead in the third inning, when Al Simmons hit a homer with two on base, Grove was pounded for two runs in the fifth. Tony Lazzeri crashed one into the grandstands, Orwell and Powers hit him. Henry Johnson and Archie Campbell, recruits, held the Athletics to eight hits.

Of all the sharpshooters Mack sent against the Yankees during the series, only Ose Orwell was successful. He pitched the Philadelphiaans to a 5 to 2 victory in the second game of Thursday's double-header. During the six games the Yankees pounded out 48 hits, in which they scored 42 runs, an average of seven runs and 11-1/2 hits a game.

Ed Morris, big right hander of the Boston Red Sox, saw a promising winning streak snapped when Tom Zachary and the Washington Senators beat him 2 to 0. Each pitcher allowed only five hits, but the breaks of the game favored the Senators.

Walter Beck, former Western League pitcher, struck out nine men and allowed two hits as the St. Louis Browns nosed out Chicago, 2 to 1. Seven of the strikeouts came in the first four innings. Ted Blankenship and George Connolly allowed seven hits, one of them a home run by Lou Blue, Brown first baseman.

CLERMONT'S TO MEET BLUE SOX MEMORIAL DAY

A real stiff battle is expected to result when the Clermonts and the Blue Sox meet at the Hasbrouck Park diamond at 3 p. m. Memorial Day. These two down town clubs are bitter rivals on the field and no doubt will draw a large assemblage of spectators to see the tilt.

Tommy Lewis of the Blue Sox pitched a winning game against the Clermonts early in the season. The defeated club has been waiting for a crack at the Sox ever since in order to get revenge, but according to reports will not have a chance to bat against Lewis in the game. Ralph Williams is scheduled to do mound duty against the Clermonts and has a brand of slants, which he hopes will fool such heavy sockers as Spalt, Mathela and Vertetics. Should Williams weaken, Lewis, the Sox speed-ball hurler, will take to the box. Tomasek will do the receiving.

The Clermonts have two pitchers groomed for the occasion. Jack Dunn and Luke Mathela, who have shown up real as pitchers this season, will be ready to answer the call. The rest of the Clermont team has been practicing for the game and will be in the best of shape to meet the Blue Sox.

ROUNDOUTS START QUARTET OF BATTLES TONIGHT

The Roundouts will start a busy schedule tonight when they take on the Spartans at Block Park. On Memorial Day afternoon Manager Golnek will take the Roundouts to New Palitz for a return game with the team of that village, which defeated the local aggregation here in a tight battle some time ago.

The Roundouts will perform in their toughest battle of the season when they meet the Hudson River State Hospital team at Poughkeepsie Saturday. The nine that will oppose the local team has been showing up real well on the diamond this year. It consists of such men as Bill Shar, Murrey McDermott and "Foxy" Kaman, who are known for their ability in the national sport.

Sunday afternoon the Roundouts will stack up against the Blue Sox at Block Park. It is expected that the followers of both nines will turn out strong to see the battle.

West New York Red Sox to Again Meet Kingston's Representatives—Yonkers Kaseys Here Saturday—Centrals at Saugerties Sunday.

The Central baseball team which plays at home for two more weeks will be in the field at the Athletic Grounds Memorial Day. The game of the local team will be the West New York Red Sox in a dual bill the first of which will start at two o'clock in the afternoon. The fate of Kingston and the surrounding communities are looking heavily on whatever two good games, and the attendance is expected to be a record one.

The Red Sox will put the same team in the field that stopped the Central in their opening game of the season several weeks ago. The team will be in better shape than when it was defeated, as it has been practicing since that time. The local team has also had considerable experience since the first game, this year, and plans to make a very good showing against the team that took the bacon from them in the initial session.

The players of the Red Sox plan to battle the Centrals with their slant. Niles, Smith and Neph, the same trio who appeared as moundmen when the Sox visited Kingston before will be ready to hurl them. Smith will likely start against the Kingstonians, as he held them to one hit in three innings on his last visit. The rest of the Red Sox lineup will be the same: Keegan, first; Kell, second; Cendo, third; G. Gabriel, short; G. Gabriel, Coyne and Jardiano outfielders.

Joe DuBois, most likely, will start the first game for Kingston, although Jack Robbins has not announced the official moundman. DuBois showed up real well against the McKinnleys of Newburgh and a large number of fans will be interested in his hurling against the Sox. Jim Volker will be ready for the second game if DuBois is used in the opener. Volker is rated as a pitcher of ability and the Red Sox will have to have their batting eyes in good shape if they wish to solve his slants.

On Saturday the Centrals will oppose the Yonkers K. C. team, rated as one of the strongest teams in the vicinity of the community it represents. The Kaseys will lineup as follows: Greening, 1b.; Mase, 2b.; Tobin, cf.; Bernett, rf.; Landy, ss.; Ungarvsky, 3b.; Jerome, lf.; Melvin, c.; Baker, p. with Curran as utility man.

Sunday the Centrals will travel to Saugerties where they will meet the Bushwicks. Dewey Van Buren is scheduled to do the pitching. Fraleigh will hurl them over for the Bushwicks.

HUTTONS TROUNCED BRIGHAMS SUNDAY

The Hutton A. C. defeated the Brigham A. C. 12-4, Sunday afternoon on the Hutton diamond. J. Maccaillane and Jack Raymond formed the battery for the winners. The Huttons would like to meet some of Kingston's teams and issue challenges to nines here. Should the Roundouts, Blue Sox, Clermonts, Red Sox, Pan-Ams or any other teams in the class of these wish to meet the Huttons they may negotiate with the manager by phoning 79-M.

Bob Zuppke Is Given Chance

INTERESTING as a sidelight upon the two-year football agreement between West Point and Illinois is a footnote that was given in New York to a group of illustrious football coaches last winter when the National Football Coaches association was holding its annual meeting.

Between Captain Elmer Jones, the Army coach, and Dr. J. W. Wilce, the Ohio State coach, sat Robert Zuppke of Illinois. Talk among the three centered upon methods of instruction and football generally when Zuppke, apropos of some remark concerning the relative merits of the events of the last season, said abruptly in his resonant Teutonic manner:

"Well, of course, so far as you two are concerned, Illinois could beat Ohio State and the Army in one afternoon. What sort of reply could be made. Later Jones got Wilce aside.

"Was Zuppke kidding, or what?" he asked. Wilce shrugged his shoulders. He didn't know. It is pretty hard to tell when Robert is spoofing and when he is not.

Well, anyway, he will have his chance in 1929 and 1930 so far as the Army is concerned and right here it might be set forth that of all the engagements that Army has made in its expansive mood following the Navy break, the Illinois assignments are likely to be the toughest.

Connie Mack Satisfied His Ball Club Is Good

"Our ball club is all right. I have no excuses to offer for the team," says Connie Mack, whose Athletics once more seem to be trying to win back the appellation recently taken from them—to wit: The White Elephants. "I have gotten together the best ball club I could lay my hands on," declares Connie. "We've invested a lot of money, bought players where we could find the ones we thought could help us, and I'm satisfied our club is a good one. It can hit and field and that is all any of them can do."

"Our trouble has been with our pitching. I thought we were going to get off with better pitching this year, but the way they've gone it looks as if they are just as bad as they were last spring. My only hope is that I can get them into shape earlier this season than last."

"But we aren't quitting. No one hates it more than the players themselves when they are losing, and no one feels it more keenly than I do. Some day, I don't care how soon, we'll start winning. The race has only started. We are going to keep on trying and fighting."

Ty Cobb Thought Babe Was Doctoring Balls

Here's a yarn Ruth tells on Ty Cobb: "Billy Evans was umpiring and on my first pitch Billy called for the ball and threw it out. "That one sailed a foot," Billy said. The next pitch was a strike and Cobb called for the ball.

"He's doctoring his ball," Ty complained. "That one sailed 19 inches." Billy threw it out. I threw the next ball, and they both squawked, and that one was tossed out, too. All told I pitched six balls to Ty on that one turn at bat. And after each pitch Evans tossed the ball out of the game. "On the sixth pitch, Ty struck out. Boy, maybe you think he wasn't sore. He walked past me when the inning was over. "You're cheating out there, you big bum," he said. "No one can make a ball sail like that unless he's doctoring it. But I'll find out about it, and when I do I'll run you out of the league."

"As a matter of fact, I wasn't cheating. I was just as puzzled as Ty. And to this day I don't know what made those balls sail so. It was just one of those things."

Max West Retained

The Brooklyn club, by retaining Max West, and sending him to Atlanta for the 1928 season, has a pretty expensive minor leaguer on its hands, but Manager Wilbert Robinson believes Max will come through and be worth it. The deal with Waco was that if West was not returned by May 1, an additional sum of \$13,500 should be paid for his contract. Brooklyn has notified Waco that the payment will be made. When Brooklyn made the deal with Waco for West it did not figure on getting Rube Dressler and Al Tyson.

PAN-AMS READY FOR PHILMONT SLUGGERS

The Pan-Ams will travel to Philmont Wednesday afternoon where the hard hitting nine of that place will give them a tough battle, it is said. Bill McNally has his chargers ready for the occasion with Celuch and Carpenter in good form for the hurler's task. O'Neill or Hinkley will do the receiving. The Pan-Ams will leave their club here at 12 o'clock promptly.

Congress Has Made a Record

Amount of Constructive Legislation Enacted by Any Congress in a Decade—Some of the Principal Measures Enacted.

Washington, May 29 (AP).—Leaving behind a legislative record unequalled in more than a decade, the 71st congress today approached the end of its first session with a record in the hours of the century's first day's filibuster, but with a House working smoothly and efficiently.

It was the executive and legislative bodies apart that Mr. Cooey, who had more than a dozen votes. Of this number three were enacted into law over his veto, and the final showdown came when the legislative bill was passed. The \$325,000,000 Mississippi river control bill, the \$222,495,000 tax reduction bill, the McNary-Haugen farm relief bill, which was vetoed and failed, the merchant marine bill with its \$50,000,000 new construction loan bill, the Muscle Shoals resolution providing for government operation of a great wartime plant on the Tennessee river.

The alien property settlement act, besides enacting these measures, passed through the nine anti-supply bills and two deficiency bills, carrying a total of \$4,642,293,737, or the largest amount appropriated for the conduct of affairs of the government since the great days for the war began to diminish in the Harding administration.

The regular appropriations for the fiscal year of 1930, totaling \$2,540,162,044. Those for fixed charges, including interest on the public debt, reached \$1,388,753,735.

Major problems which failed of action at this session were the smallest number at any time since Congress began dealing with domestic issues in many ways traceable to the expansion of Federal activities. The most important were the wider Canyon Dam bill, railroad nationalization and general coal legislation.

Other measures which failed of enactment were the \$274,000,000 Naval construction program, contemplating ten new cruisers and an aircraft carrier, the \$14,000,000 Naval shore construction bill and the Army provision measure. They are still pending for action at the next session.

The chief executive had less difficulty than usual with the Senate in getting through his nominations. One of importance, except that of the J. Esch of Wisconsin, to be confirmed on the interstate commerce commission, was rejected.

LUTHER LEAGUE CLOSING ITS SESSIONS

New York, May 29 (AP).—The Rev. E. Reissig of Rochester today was elected president of the Luther League of New York state at the thirty-fifth annual convention. Officers chosen were: Vice-president, Ross E. Smith, of Schenectady; recording secretary, Mrs. William A. Goetzman, of Buffalo; corresponding secretary, Miss Irene C. Haefner, of Westwood; treasurer, Florence C. Dittmer, of Brooklyn.

An invitation from the Rochester chapter of Commerce to hold the league's next convention in that city was read. Since it was the only invitation received, it will likely be accepted.

Methodist Bishops Reassigned.

Kansas City, May 29 (AP).—Twenty-one domestic bishops of the Methodist Episcopal Church were reassigned today by the Episcopacy committee of the general conference of the church in session here.

Large Fruit Farm Sold.

Ralph A. Young has sold his large fruit farm in the town of Ulster to Bert Bober of New York. The sale is consummated through the firm Davis & Miller, 48 Main street.

Spanish Fliers Off for India

Seville, Spain, May 29 (AP).—The Spanish aviators Jimenez and Iglesias, who are seeking to establish a new world record for endurance flying, hopped from Seville at noon today for Karachi, India.

The fliers originally had hoped to make a transatlantic flight to Cuba, but gave this up when the Spanish government did not approve the long over-water hop.

The plane in an attempted take-off May 13 for India crashed into an automobile and was damaged, necessitating a postponement.

CONTEST FOR LEADERSHIP OF WOMEN'S CLUBS FEDERATION

San Antonio, Tex., May 29 (AP).—A contest for leadership of the General Federation of Women's Clubs, drawn largely on the issue of a "home-woman" against a professional woman, loomed here today at the biennial convention of the organization.

Mrs. Edward Franklin White of Indianapolis, a lawyer, clerk of the supreme court of Indiana, at present first vice president of the federation, and for eight years legal advisor of the organization, is the candidate of those who favor placing a professional woman at the helm for at least one term.

Advocates of a "home-woman" for president are rallying to the banner of Mrs. John P. Sippel of Baltimore. Since she entered federation work she has headed her own local club and acted as chairman of the resolutions committee for the federation. At present she is chairman of finance for the General Federation.

LINCOLN AND COOLIDGE PICTURES AT G. O. P. MEET

Washington, May 29 (AP).—Pictures of the first and the most recent standard-bearers of the Republican party, Lincoln and Coolidge, will serve as the only decorations of the convention hall in Kansas City.

"There is no political significance in use of President Coolidge's picture being used on the platform," said Mrs. Alvin T. Hert, chairman of the committee on decorations. "He is the leader of the party until somebody else is named to take his place."

Both pictures will be eight or ten feet high, and will be placed on either side of the back of the platform. Bunting and a few American flags will serve as the only other decorations, both to be so placed as not to obstruct the view of spectators in the gallery.

CASE INVOLVES THE ZONING ORDINANCE

Former Judge William D. Cunningham is engaged in the trial of a very important case at White Plains, involving property exceeding a million dollars in value. Opposed to him is a distinguished staff of lawyers, consisting of former Gov. Nathan L. Miller, former Supreme Court Justice Humphrey J. Lynch, former Judge White and two others. The case undoubtedly will go to the Court of Appeals and perhaps to the U. S. Supreme Court. It involves the zoning ordinance of the wealthy village of Scarsdale, which prevents the erection of apartment houses on the land of Judge Cunningham's client, Fox Meadow Estates, Inc. The latter seeks to mandamus the village to issue a building permit.

THIRD SAFE BLOWN BY BURGLARS NEAR BATAVIA

Batavia, N. Y., May 29 (AP).—For the third time in three weeks, burglars, believed by State Troopers to be working out of Buffalo, have blown a safe in this vicinity.

When office employees of the Rapp Brothers feed mill at Darien Center went to work this morning, they found the safe blown and \$180 gone.

Three weeks ago burglars took \$500 from a safe in Alexander. A week ago \$100 was taken from the express office in Bliss.

Harmony Rules in Milady's Duds

Apparel From Head to Foot Must Conform; Sports Suits Attractive.

Ensemble is the keynote of this season's costume, advises a fashion writer in the New York Times. Everything from the crown of a woman's hat to the tip of her slipped foot must harmonize. The idea runs through every type of dress and has brought out a wealth of fabrics of great diversity of pattern and color. It has been the outstanding feature at each of the recent fashion exhibitions and in the showings at all of the exclusive establishments.

In sports dress, which is the chief requirement for the variable temperatures of spring and early summer, there are many strictly tailored suits, which are made of the latest materials. Some of the models are shown in the new knicker fabrics, used by themselves or combined with other stuffs, which is done so much in the less formal and more feminine sports ensembles.

Coupe, for example, makes a swaggy sports suit of which the jumper blouse is made of checked brown and beige wool. On this is stitched in diagonal lines bands of plain beige crepe like that of the skirt, which is laid in wide side plaits that flare slightly at the bottom. A top coat, cut straight and very "roomy," is made of the beige wool with a lining of plain brown crepe de chine.

Another sports ensemble of the same description suggests midsummer. It is a sleeveless belted jumper of light blue crepe cut with a yoke and finished with geometric bands of white flannel made with an inverted box plait on one side. The coat for this suit is built of the flannel, simply tailored, and is lined with blue crepe.

Ensemble of Flat Crepe.

One especially striking sports ensemble from Lucien Lelong is made of flat crepe, the finger-tip blazer jacket and finely pleated skirt being all white, while the sweater blouse, also mostly white, has a fold of black satin outlining its V-neck and forming a girdle, which is cut with jagged points along the upper edge. In another model of gray crepe the skirt is plain and the overblouse has strips of white crepe of different widths stitched in points low on the front and straight around the bottom. A short blazer, to be worn open, is finished with a band of white along the edges and at the wrists and pockets and a long cap of gray crepe is designed as an extra wrap.

Some attractive sports ensembles that come from London combine successfully two different fabrics. For example, a sweater and jacket are made of dark green jersey, untrimmed but for a cluster of narrow stripes around the point of the waist, and are to be worn with a plaited skirt of white.

Every smallest detail is made to conform to the ensemble in the early summer styles. Original and delightful articles are being designed to create harmonies in dress. One of the latest is the handkerchief, in which the Deauville scarf is now seen in replica. Stripes are considered particularly smart, and sets of handkerchiefs are shown in linen and batiste.

Colored handkerchiefs are generally used. They repeat the designs in dress fabrics, and all the chic patterns of polka dots, little checks and plaids, geometric and modernistic, are seen in linen printed in all of the fashionable colors.

White handkerchiefs, too, remain in demand among some women, and there are many new styles. Lace edges are worn with small animals and birds, flowers and conventional patterns applied in plain bands, and initials or monograms are still in vogue. Some attractive examples of this style are done in drawwork and other fine needlework. An extreme novelty is the chiffon handkerchief which is shown in all of the delicate colors, with an edge of lace or metal.

In this year of revivals some fancy and charming new patterns in stockings are being brought out. Sports hosiery follows the modernistic trend in accessories and appears in gold geometric designs, the holder the more chic. In silk stockings to be worn with formal afternoon and evening dress the latest have plain mesh at the back with inserted fronts of lace.

In some models an entire dext just covers the instep, and in others, the lace motif extends from the slipper vamp almost to the knee. Black silk with front of black chantilly, black with white, beige with lace in the same shade, and another all in brown are among the engaging novelties coming from Paris where the dressing of the feet is considered to be an essential point in the ensemble.

Makers of fine shoes are now including in their stock in trade bags that match their new models in dressy footwear, and the shops in which novelties in fancy bags are to be found are suggesting the proper shoe and slipper. These sets, intended for elaborate afternoon and evening dress, are unique and some of them have unusual combinations of material and trimming. For daytime antelope is used with narrow hand appliques of patent leather and a kind of opalescent-finished kid, a bag or square envelope shape being made with the fold-over leather top, and no visible frame.

Black patent-leather trimmings on black antelope with little straps and tassels is another smart bag and shoe ensemble. Evening slippers and silver kid trimmed with a graceful arrangement of narrow bands of oxidized leather are made to match a small silver kid bag, and slippers of crepe de chine, grosgrain and satin have straps of tiny jewels like the trimming of the bags.

Cap in Fashion Picture.

The cape has captured the fancy of both modistes and their clientele, and ensembles of every sort and description are made with a cape of some form, long or short, circular, full, gathered or fitted. In the sports and tailored suits the cape is a practical item, intended to be used in place of a coat. In light-weight woollens and the

crepe a cape is a sort of compromise, an expedient for a wrap when something of light or medium weight is desired, and most of the capes of this description are unified.

In the practical type of dress a cape is necessarily conventional, simply tailored and may or may not be a part of the costume. In the more expensive models it shares popularity with the coat, which is equally good this season whether made long, short or three-quarter length.

In the softer materials and dressier type of ensemble the cape is shown in many charming styles. A three-piece costume for informal afternoon or street wear is made of pale gray wool with both the skirt and the three-quarter length cape finely plaited. A model very like this in plain goods is made of black and white

polka dot printed crepe, the pattern having an unusually pretty effect in the plaiting.

A cape model that is reminiscent of an old style is made of Japanese green kashu with a ruffle of narrow crepe de chine plaiting around the edge, and one of the handsomest models in evening wraps brought from a leading Paris house is made of French blue taffeta, cut full, to wrap well around the figure. It is gathered into a band and has a wide ruffle of the folded silk around the neck and all about the bottom, and has no other trimming.

"Pan-American"

"Pan" was originally a combining form used in Greek words. It means all. For instance, Pan-American means embracing all the Americas. The form is used as a prefix before proper adjectives, Pan-American means embracing all Americans, or all the Americas—North, South, and Central. A Pan-American conference is a conference composed of delegates from the various republics in the New World.—Hathorn Magazine.

Mississippi's Width

There was great range in the width of the Mississippi at the time of the discovery of this country. From Lake Itasca to Minneapolis the natural width increased from less than 50 feet to more than 400 feet at ordinary stages. Below Cairo the natural width is from 1,000 to 1,500 feet; the bank-full width, 2,000 to 10,000 feet.

Sound and Ear Drums

In general, we give the name "sound" to a sensation caused by stimulation of the auditory nervous centers by vibrational energy. This vibrational energy is also, in physics, called sound, so that in this sense it would not matter whether or not there was an ear drum to catch this sound.

Cannot Try Negro for Murder

Poughkeepsie, N. Y., May 29 (AP)—Willie Richardson, 32-year-old negro of Dutchess Junction, who, according to a coroner's verdict, struck the blow which resulted in the death of a fellow-workman, cannot be brought to trial for the killing, county of Dutchess said today.

Richardson, court records show, quarreled with George Farrell, 31, several months ago and struck him on the head with an axe. Farrell was taken to a hospital and Richardson was arrested. When Farrell's condition improved Richardson was allowed to plead guilty to a charge of assault, third degree, and was sentenced to 11 months in jail.

Farrell died yesterday. Coroner Johnson returned a verdict of death due to an abscess of the brain, caused by the blow from the axe. Officials said that under the rule of double jeopardy, Richardson could not be tried twice for the same crime.

Financial and Commercial

New York, May 28 (AP)—Heavy buying of the motor shares, based in part on expectations of favorable third quarter earnings statements, turned the course of stock prices upward today after an early period of uncertainty. Early declines of 1 to 5 points in many issues were marked up 1 to nearly 15 points. Trading was fairly heavy for a pre-holiday session, sales crossing the \$100,000,000 mark before the end of the third hour.

Wall Street apparently had recovered from the shock of a 6 1/2 per cent fall in money rates yesterday, the highest in seven years. Call loans remained today at 6 per cent and there appeared to be plentiful supply of funds available at that figure. The day's business was rather mixed in character. Spinning of the tax bill by President Coolidge was widely commented upon as a bullish factor, although the cut in the corporation tax was not as large as many had hoped for earlier in the year. The weekly steel trade reviews reported a further slackening in demand and output, but prices held fairly steady.

Dodge Brothers, preferred, which has been yielding nearly 10 per cent at recent levels, ran up 1 1/2 points to a new peak at \$2, while the common advanced about a point. Talk of a large increase in sales and volume of business involving Ford and other companies accompanied the advance. Chrysler extended its gain to 7 points by touching a new peak at \$7 1/2. Studebaker, General Motors, Hudson, Hupp and Mack Trucks advanced 2 1/2, 2 1/2 and 2 1/2 points.

International Harvester, Radio and Curtiss Aeroplane sold 6 to 8 points higher and Wright Aeronautical, May Department Stores, Allied Chemical, Otis Elevator, Greene Cananea Copper and New York State Railways preferred were among those advanced 2 points or more. International Paper ran up more than 3 points despite the cut of \$3 a ton in the price of newsprint for 1923 delivery. A nine point jump in Texas and Pacific revived interest in the rail group. Early declines of two points or so had been recorded by Rock Island, Louisville and Nashville and Southern Railway.

Use of Paper Fiber

This country uses about 50,000 tons of paper fiber a year. It is utilized as a substitute for reed in furniture, and is also used in the making of rugs.

POULTRY**RAISING TURKEYS IN CONFINEMENT**

America's great turkey bird is getting ready to strut again in the Middle West just as his proud ancestor did years ago. The wild gobblers were once monarch of the feathered family in the woods that stretched up and down the Mississippi valley. As he disappeared from the timber, turkeys were brought into the barnyard and an attempt was made to tame them so they could be handled as chickens are today.

But gobblers drove them out. Then came the apparently erroneous theory that turkeys were delicate and could not be raised successfully unless they were given an open range where they could get plenty of exercise and catch grasshoppers and bugs. That theory has been disproved.

It is now known that turkeys can be successfully raised in close confinement. This may change the entire system so that in the future the laying, brooding and marketing season can be greatly lengthened. Turkeys may eventually be produced almost the year around and be brought in fresh from the farm every month in the year. Instead of turkey raising being practically all of their surplus birds at Thanksgiving and Christmas holiday seasons, as they do at the present time, they will be able to furnish fresh ones winter and summer.

The production of snub turkeys, weighing from eight to ten pounds, on a year around basis may be developed in the future. It is at least made possible through the use of artificial incubators and brooders and the development of the confinement method of handling the birds. Breeders will have to change the laying habits of the turkey hen just as the poultrymen did with the chicken hen.

June Chicks as Easily Reared as Early Birds

June-hatched chicks are no more delicate than those hatched during the early part of the year, although some poultry-keepers think they are.

What makes them more difficult to rear without loss in ninety-nine cases out of a hundred is that they are run over ground that has been occupied by broods of chicks for months past.

You'll find the June chicks go ahead without mishap if only you'll give them a piece of fresh ground—ground that hasn't been used for any kind of fowls for four or five months. If you haven't much space you'll maybe find this difficult to manage, but failing grass land there is no reason why you shouldn't turn them out onto a piece of "turned" soil.

Test to Find When Eggs Will Become Fertile

A test conducted in Canada shed some light on the question of how soon after the male is introduced eggs become fertile. In this test five days after the introduction of the male half the eggs were fertile. On the seventh day 70 per cent of the eggs were fertile, and the per cent of fertility remained fairly constant at this figure.

Another test was conducted to see how long the eggs remained fertile after the male was removed. For the first four days 70 per cent were fertile. On the seventh, half of the eggs were fertile. On the tenth day after the removal of the male all were fertile.

Poultry Facts

Ask your county agent about the confinement method of growing chicks.

Feeding and housing of hens are the most important factors affecting the hatchability of eggs.

As a whole grain in the scratch feed, wheat is a very useful feed. It can be ground and used in the mash with good results.

If a turkey hen settles upon a suitable place to make her nest she should not be disturbed, but it is best to remove the eggs every day, leaving a china egg in the nest.

All notions of the warm house should be abandoned and a house built along lines that will furnish the best shelter.

As soon as the ducklings are all hatched, pick up the hen mother by the feet, hang head downward and ruffle the feathers before dusting well with insect powder.

Cannibalism among young chicks usually starts either from idleness or lack of a proper ration. Be sure chicks are fed properly and then keep them busy at all times.

Fine sand is best for the floor of the brooder house. The sand should be clean, sharp and sifted for young chicks.

Overcrowding the young chicks will cause heavy losses. Each four chicks should have at least one square foot of floor space in the brooder house.

Too picking and cannibalism are common poultry worries. The cause is crowding too many chicks together under one cover, or an unbalanced ration—lack of protein and green stuff.

Announcement.
Announcement has been made by Mr. and Mrs. George W. Schwarz, waelder of Poughkeepsie of the engagement of their daughter, Miss Lillian Schwarz, to John P. Norton of Binghamton.

Farewell Dinner.
A farewell dinner was given to Miss Anne R. Leonard at the Kirkland Hotel last evening by a number of her friends. The dining room was very prettily decorated for the occasion and a delicious dinner was served. Miss Leonard's friends at the close of the dinner wished her a fond farewell. She is to be married early in June to G. McCollough of Kansas City, Mo.

Short-Jordan.
Miss Mary E. Jordan, daughter of Mr. and Mrs. Ira W. Jordan of Port Jervis, and Alanson W. Short, son of Mr. and Mrs. Alanson H. Short of the same place, were united in marriage Thursday morning, May 24, by the Rev. William Rathbun of the Port Jervis Methodist Episcopal Church. They were attended by Miss Kathryn Jordan, sister of the bride, and John R. Short, brother of the groom. Upon returning from a honeymoon spent in New York city and vicinity the happy couple will reside in Port Jervis.

Miscellaneous Shower.
Miss Helen Campbell was hostess at a shower tendered Mary R. Callahan at her home on Monday, May 28, in honor of her approaching marriage to William J. Walsh of New York city. She was the recipient of many beautiful and useful gifts. At 11 o'clock the guests were ushered into the dining room where a bountiful repast was served which was prepared by Mrs. Campbell. Dancing and games were enjoyed until the wee hours of the morning when the guests departed wishing Mary many happy years of married life.

The guests present were: Helen Campbell, Mary R. Callahan, Mary Buck, Agnes, Helen Lynch, Florence O'Dea, Kathryn Stauble, Mary Lanigan, Marion Tunney, Eva McGraw, Mary Lamb, Marion Miller, Gilette Teetzel, Florence Madden, Kathryn Dougherty, Annabelle Connors, Marie Ulrich, Mary Morin, Betty Du Bois, Margaret Carty, Maria Sharpe, Mary and Margaret Brophy, Agnes and Margaret Shortell, Margaret and Agnes Fraser, Alice Callahan, Mrs. J. A Coming Marriage.

The Rev. Joseph A. Huband will perform the ceremony which will unite in matrimony his sister, Agnes M. C. Huband and Joseph Storck, both of New York city.

The wedding will take place at the Church of the Assumption, West 49th street, on Wednesday, May 30, at a solemn high Mass which will be celebrated by the brother of the bride, assisted by the Rev. William A. Cassidy, of Poughkeepsie, as deacon, and the Rev. Arthur H. H. of Brooklyn, as sub-deacon. With the Rev. Dennis Coleman, of Wakefield, as master of ceremonies. The bride, who will be given in marriage by her father, will have Josephine Schlegel, of Little Ferry, N. J., a cousin, as matron of honor, and the other bridal attendants will be Helen and Kathryn Delemauer of this city, Margaret Hoenigshausen of Brooklyn, and Margaret Kuhn of New York. The bride's gown will be of ivory satin trimmed with chantilly lace. Her long veil of tulle and lace heavily adorned with pearls about the head will complete the modern note of her bridal finery. John C. Huband, a brother of the bride, will act as best man for the bridegroom. After the ceremonies the relatives and friends will be the guests of Mr. and Mrs. Joseph Storck at a dinner and reception in the K. of C. Club Hotel. A few days later the couple will sail on the "New York" for an extended wedding trip visiting their relatives in Europe.

One of the world's most remarkable tobacco boxes is in Caxton hall, London. It is more than a foot square and four feet high, and it weighs 100 pounds. The original box of 200 years ago has been enclosed in others added from time to time, all encased in silver. It is now insured for \$5,000.

Excess of Patriotism

"Chauvinism" derives its name from Nicolas Chauvin, a soldier in the army of Napoleon who was ridiculed by his comrades for his demonstrative and unreasoning patriotism. The term has come to be applied to any one's excessive enthusiasm for national ascendancy.

Curries Tell Story of Fight

Frank Chalmers Seaman Attacked Him With Hammer and Wrench—John Curries Was Beating Frank With Hammer.

The defendant Frank Currie of Highland was the first witness called this morning in the assault case brought by John R. Seaman of Highland to recover damages for personal injuries alleged to have been sustained in a fight on the Seaman premises on September 3, 1922. Currie testified he had lived at Highland for 24 years.

On the day in question Frank was packing pears. Seaman was putting up a sign on the border line of the properties which adjoin. After completing his work Seaman was about to leave when Frank asked him to talk with him and to get together and settle their differences. Frank said he asked him to take the sign down and settle their differences and have a dance. Seaman immediately began to call him names and walked away. Currie, who is deformed by reason of a withered hand and arm, said he went over to talk to Seaman and Seaman attacked him with a hammer and wrench. He was knocked down and John Currie's brother came to assist him. He was not sure just what happened. He saw Seaman and his man who ran the gasoline station have his brother John down and they were beating him when he first recovered and saw what was going on. Frank said he was struck on his shoulder with the hammer or wrench and he went down and apparently out. It was his deformed arm which was struck first.

On regaining consciousness Frank said he tried to help his brother, who was being beaten up. He may have hit Seaman with the hammer. After the fight Seaman went to his stand and secured a rake and started a second attack. At that point Frank said he had picked up a stone and told Seaman he would hit him with it unless he put down the rake. He did not have a stone in his hand before and never hit Seaman with a stone. His brother, John, did on leaving the premises throw a stone into the Seaman refreshment stand.

Frank Currie said he had not gone to the Seaman place to fight, but to talk with him and try to adjust their differences. He was attacked before he could speak a word.

Tried to Protect Brother.
He said he never touched a person until after his brother, John, was down and Seaman and his man were beating him; then he tried to protect his brother. Frank Currie said he was the father of six children and his wife had recently died at the time of the fight. The first place he was struck by Seaman, he said, was on the thumb of his good hand, which was put out of commission. His right arm is useless.

He claims his injuries sustained are still bothering him and he seeks by a counterclaim to recover damages from Seaman. His brother was attempting to take the hammer away when he arrived and he supposed his brother and Seaman went down while tussling over the hammer, he did not see his brother strike any blows.

John Currie was called. He told of coming to the scene and seeing his brother out. Seaman had a hammer and was beating Frank when he arrived. Townsend, Seaman's gasoline station man, was holding Frank while Seaman hit him. On his arrival on the scene Seaman attacked him.

Called For Help.
Margaret Currie, a sister, was called. She was at the refreshment stand when her brother and Seaman were talking. She saw her brother start over to Seaman's place and she walked to a point where she could see what was going on. She saw Seaman hit Frank and she called for help. Her brother
